Experience

Tech Company Inc.

Senior Software Developer

City, Country

2022 - Present

Led development of microservices architecture using Spring Boot and Node.js, implementing CI/CD pipelines that reduced deployment time by 60%. Mentored junior developers and conducted code reviews ensuring high code quality standards. Technologies: Java, Spring Boot, Node.js, Docker, Kubernetes, AWS.

StartUp Ltd.

Software Developer

City, Country

2020 - 2022

Developed RESTful APIs and frontend applications using React, optimizing database queries resulting in 40% performance improvement. Collaborated with cross-functional teams in Agile environment to deliver high-quality software solutions. Technologies: Python, Django, React, PostgreSQL, Redis.

Software Solutions Co.

Junior Developer

City, Country

2018 - 2020

Built responsive web applications using modern JavaScript frameworks, participating in full software development lifecycle. Implemented automated testing strategies to improve code quality and reliability. Technologies: JavaScript, Vue.js, Node.js, MongoDB.

Education

University Name

Bachelor of Science in Computer Science, GPA: 3.8/4.0

City, Country

2014 - 2018

Open Source & Projects

E-Commerce Platform

Lead Developer

2023 - Present

Built a full-stack e-commerce application with payment integration, implementing real-time inventory management and order tracking. Technologies: React, Node.js, MongoDB, Stripe API. Available at github.com/johndoe/ecommerce-platform.

Task Management System

Core Contributor

2022 - 2023

Developed a collaborative project management tool with real-time updates, integrating WebSocket for live collaboration features. Technologies: Vue.js, Spring Boot, PostgreSQL. Available at github.com/johndoe/task-manager.

API Gateway

Creator & Maintainer

2021 - 2022

Created a microservices API gateway with authentication and rate limiting, implementing service discovery and load balancing. Technologies: Go, Redis, Docker, Kubernetes. Available at github.com/johndoe/api-gateway.
